Subject: Qld Parliament's abortion bill

Dear Parliament members,

I wish to voice my strong objection to the bill being presented to parliament by Mr Rob Pyne.

I understand the bill is going to allow abortions right up to the time of birth. This is incredible. A child a day or two off being born is human child already formed - to abort that baby is tantamount to murder. If passed, the Queensland parliament will be responsible for the murders of countless children. I find that inexplicable.

Secondly, I have read of many women who have had abortions just to get rid of an unwanted child, who subsequently are suffering psychological damage as a result. Many wish they hadn't done it.

Most intelligent members of our communities know having an abortion is a foolish thing to do. But some women do it to avoid unwanted inconveniences. To murder your baby just for personal convenience - where is today's society going???

Also the bill would force doctors who have a conscientious objection to abortion to do the operation or face civil disobedience that is ridiculous and totally unfair. To do this makes us a police state.

Please vote against this bill, or better still, make sure it never comes to the table.

Yours with deep concern,

Peter Evans. [REDACTED]
