Subject: Changes to law
Date: Thursday, 23 June 2016 9:59:38 AM

Please do not pass any change to law that gives adults the right to dispose of new life in the form of abortion at any stage of pregnancy or for any reason. Legalising abortion is not an answer to any social plight. What we need is more support for women and babies at risk. I plead with you to think of the moral law that far outweighs our puny man made laws that appear to bring relief to a few at the extermination of many. We rail against Hitler and support the murder of innocent babies.
