Subject: Objection to loosening our abortion laws
Date: Friday, 24 June 2016 1:53:39 PM

I want to submit a submission regarding changing our abortion laws.

It is incredible that in an age where we have neonatal intensive care capable of saving babies born at very young ages, the humanity of these most vulnerable of our citizens is denied. It is incredible that we are able to operate on babies while in the womb to correct deformities, while also permitting them to be summarily killed. We don't execute murderers, but seemingly babies are ok to be killed if they aren't deemed to be wanted.

Changing the law to remove protections and putting in no safeguards is wrong. We cannot deny the humanity of the unborn. Saying that they don't deserve the protections of the law from being killed is wrong. Saying that some people aren't "people" worthy of protection from harm is wrong. Loosening the existing horrible laws is wrong.
