I wish to express my concern on abortion, no person has the right to kill an unborn child, that child should have the right to live. If the mother who would give birth to the child decides that she does not want there are many women out there who would be willing to gladly give that precious child a home & loads of love. Our son & daughter in law had to wait 25 yrs before they were able to have a child, they would weep when they heard of another child being murdered when the mother aborted.
