Subject: I Oppose the Tabled Abortion Bill of MP Pyne
Date: Friday, 24 June 2016 2:12:21 PM

I ask that you note that we totally oppose the proposed Abortion laws tabled before the Queensland Parliament. In short, this proposal removes all the protections due to the unborn child while denying any safeguards. These unborn children are helpless and their life or death stands on a whim. The unborn child is not dead in the womb - it is life itself created by its parents be it deliberately planned or otherwise. A caring human response to life is to care for it and nurture it. If the mother is unwilling to for any reason, it behoves the caring society to so. In this case, life can not be terminated by a mother or an advising Doctor. Every government must enforce laws that protects life, even in the face of opposition - then it can truly claim that it cares. In the case of abortion, this cannot be an agreement with the mother under her argument that she should have control over her own body. With tens of millions of unborn children being aborted every year throughout the world let the Queensland government be seen to stand for helpless children and for life itself.

Sincerely,

Leigh and Kay Blair
