Allan Choveaux, [REDACTED]  
[REDACTED]

Sir/Madam.

I note that Cairns MP Rob Pyne, has proposed a change to Queensland legislation, regarding abortion, and I advise my opposition.

Killing children in the womb, the most helpless of people, the most innocent of people, is a crime against humanity.

I understand that science now accepts that a human being exists from the moment of conception, inside the womb, because the total make-up of the person is present - colour of eyes, skin, hair, male or female, etc. etc., and that is plain common sense - now that we understand DNA in greater and greater detail.

Please ensure that Pyne's proposal is THROWN OUT THE DOOR.

My compliments.

Allan

24th. June, 2016.
