Dear Sir/ Madam,

I Gary Alan Hine wish to take a stand against the abortion law reform as I totally believe it has immoral and dangerous implication for the right to life of the unborn child.

A baby is a human being from the moment of conception at which time life is created in the cell. Any abortion after the time of conception is murder. Murder is a grave offence! Killing a live unborn child or leaving a live born child to die is abominable action and must be stopped.

Yours Sincerely

Gary A Hine
