To Whom It May Concern,

I am extremely concerned about the new abortion law reform that MP Rob Pyne is proposing. I oppose the bill before parliament which removes all protections and puts in no safeguards.

Women already have the 'right to choose' whether they participate in sex or not. Becoming pregnant or not is the consequence of their actions and choices. Both women and men need to take responsibility for their choices. When Governments don't support people taking responsibility for their own choices then we have a grave future. More attention needs to be given to educating people and bringing up a community of respectful individuals where we encourage healthy relationships. If we don't show respect to ourselves, each other and to the sanctity of life then there is no hope for a bright future.

Abortion is Murder! Children have the 'right to be born'. Families are perpetuated through the sacred power of procreation. Let me remind us that if our parent's had sought an abortion, where would we be now?

I call upon the committee to search your hearts and conscious, for you know the things I have spoken of are true. Have the courage to choose the right and to follow through.

Thanking you,
Deb Annesley
