Subject: Proposed change to Abortion Law
Date: Friday, 24 June 2016 2:40:11 PM

Through our excellent Health System we have access to birth control measures & pregnancy health care, including early detection of foetal abnormalities. The thought of late term abortions for a healthy viable child is horrifying. I support retaining the present abortion laws which include medical assessment of the mother's physical & mental health & the child's health.

Sincerely,

Marguerite Larwill
