Subject: Abortion Law Reform - against abortion
Date: Friday, 24 June 2016 3:02:08 PM

I would like to register that I am against abortion.

As soon as there is a heartbeat, there is life and no human has the right to take another's life.

If people don't want children they should practice safe sex or abstain.

What type of country kills its own people? What type of country offers no protection to its children? Apparently not an under developed third world country, but a supposedly loving and accepting first world country.

Stop abortion.

Regards
Carin Van Der Walt
