I am writing on behalf of the thousands of unborn children who will never see the light of day because their parents choose to terminate the life of that child, even at full term pregnancy. We live in a schizophrenic society that will spend thousands of dollars saving the life of a premature baby but terminate the life of a full term child just because the parents have that choice. I hope you will carefully look at these new laws and consider the impact they will have, not only on the child and its parents, but also on a society that places so little value on the young, vulnerable and defenceless.

Yours faithfully
Elizabeth Scott
