Subject: Killing the unborn
Date: Friday, 24 June 2016 3:44:21 PM

Aborting an unborn child - i.e. to erase its life - is murder just as if it had been born.

Doctors pledge to maintain and deliver life - not to kill. Doctors should not be placed in any situation where killing an unborn is a legislative requirement.

Should any parent not want their own child, an idea that is reprehensible and unfathomable to us, then an easy path to adoption should be made as there are many couples who would highly value and care for such a child.

The State Government should have no part in killing future citizens of our fair state.

Dennis @ Margaret O'Neill
