To the committee reviewing this bill,

I would like to register my objection to the passing of this bill. On many levels I feel that abortion is such a travesty of justice. Firstly for the child, who's is at the mercy of adults and totally unable to defend or cry for help. Secondly I grieve for the women, who often are emotionally vulnerable and often at the behest of others terminate the life of their child. This often has long term and far reaching psychological and emotional implications for them, which are not recognised or validated by our society. Because.....it was their choice. We save whales, trees, rivers, bats anything but not our own species. What does this say about us. Please, please allow queensland to be the bastion that cherishes life.

Yours sincerely,
Liesel Walton
