Hello

Re: Submission

I believe a woman had the right to choose before she became pregnant. If the law is that an unborn baby can be murdered up to 3 months, but the next day the unborn baby cannot be murdered, lawmakers have failed in their **duty of care** to protect the life of an unborn baby. Murder is a serious crime. Lawmakers have enforced the law when it applies to murder through assisted suicide. However, they have not enforced the law when it applies to murder through abortion. The same law applies to life at 3 months and to life at 80 years & 3 months. What dreadful **inconsistency**. What dreadful **hypocrisy**. What dreadful **convenience**.

Yours Sincerely
Dr Peter Gross
