Dear Sir/Madame..

I write as a concerned citizen who has had enough of seeing the pillars of society under threat, none more serious than the sanctity of the defenceless unborn.

We concern ourselves about various animal species that are threatened with extinction or endangerment yet don't give a second's thought about a human life not yet born, dismissing it as an inconvenience .

I urge you to toss this bill out & defend the defenceless, surely the responsibility of legislators.

I am..
