---

To Whom it may concern,

I am writing to express my views as an Australian citizen.  
I seriously oppose abortion, It is murder pure and simple. It is never ok to take a human life. I don't want this to come into the country which I love. I was adopted myself, and am so glad that my mother didn't abort me and kill me in the womb. I have a choice today to have an opportunity at life and experience the beauty of being a human being, not just some animal killed off in the womb. We have organisations like world vision and many others to help our fellow man yet all around the world people are murdering the innocent every day in the womb. Please don't have this bill passed. I oppose it and think it's terrible,inhumane and murder plain and simple.

Kind regards,

Ronnie Gardiner
