---

To whom it may concern

I am opposed to the Abortion Law Reforms on a few levels

1. We defend the right to life of all human beings from conception until natural death.
2. We believe that the moment a human sperm penetrates a human ovum; a new entity is formed.
  - a. "Zygote" is the name of the first cell formed at conception. The zygote is composed of human DNA and other human molecules, so its nature is undeniably human and not some other species.
  - b. The cardiovascular system is the first major system to function. At about 22 days after conception the child's heart begins to circulate his own blood, unique to that of his mother's, and his heartbeat can be detected on ultrasound.
  - c. At just six weeks, the child's eyes and eye lids, nose, mouth, and tongue have formed.
  - d. Electrical brain activity can be detected at six or seven weeks, and by the end of the eighth week, the child, now known scientifically as a "fetus," has developed all of his organs and bodily structures.
  - e. By ten weeks after conception the child can make bodily movements.
3. We believe that abortion is always taking of a human life.
4. We believe that humans have no right to set limits of human life
5. We believe the bible clearly prohibits the shortening of another's life
6. As a taxpayer, I am opposed to our tax dollars being used to either fund or protect abortion laws.

Sincerely

Senior Pastor Byron Graham
