To, Members of parliament, in Queensland.

The Bill coming before parliament dealing with abortion is a disgrace. Abortion is murder. Murder of the innocent.

Those that have not witnessed the shocking video "The Silent Scream" should do so with out delay. Watching the tiny unborn baby trying to evade the murders knife is horrendous.

Those pushing for abortion have no humanity. Anybody involved in an abortion should be put on trial for murder. Those putting the law in to practice are on notice. They may well be charged with being an accessory after the fact..

This is a night mare for people who love life and understand they have been created by God for a higher purpose.

Regards, Norman Webster.
