Hi,

I oppose this outrageous law proposal, and think it unimaginable that this is even considered given my personal beliefs that life is primarily about love for God our Creator who gave us everything we enjoy, and love for our fellow human beings who are made with the equally priceless inherent value and worth.

I however sadly acknowledge that there are many many people who believe life is primarily about self, about getting my rights, my wants, my desires, my choices, even if it means harming and, in this case, murdering innocent victims to get what I want.

We need to fight together as humanity against this virus that is within each one of our hearts (mind included) to live for self instead of each other, not give permission to it to spread rampant. Let's rather uphold and promote the value and beauty and miracle of human life, and give woman who find themselves in crisis pregnancy opportunities for help and support, much like what 'the babes project' do in Melbourne.

Our nations concept of 'freedom' needs some serious wisdom injected into it. Freedom isn't the absence of restrictions so that I can do whatever the hell I want. Freedom is living within the healthy boundaries that God has given us for life to thrive for every individual on this planet, outlined in the 10 commandments found in Exodus 20 in the Bible, and summarised by Jesus in Mark 12:30-31; "You shall love the Lord your God with all your heart and soul and mind and strength." And; "You shall love your neighbour as yourself." If you were that baby, would you want to be murdered or given life. In fact, think about your life now. Why isn't there a law saying that I can murder you if I don't want you? Because we all agree that God's law says "Do not murder." Stop being so inconsistent and start thinking about others and loving others as your own self.

The freedom you are trying to promote through this law will only lead to pain, misery, death and slavery, not only for the women who suffer the internal conflict and consequences of their decision, but also for the helpless and innocent and voiceless precious lives that you seek to silence and give no right to life.

This is coming from the deepest place of love. Do not go ahead with even considering this law. You will only find yourselves being opposed by a power far greater than you can imagine.

In love for God and my fellow man and woman.
