Subject: Proposed abortion bill

Dear Sirs,

I wish to register my strong objection to the proposed Abortion Bill at present before the Qld Parliament.

If the proposed changes were to be adopted it would give Queenslanders access to unlimited abortions with devastating effects on the unborn children and mothers and be the worst abortion law in the world

I would be ashamed to be known as a Queenslander. should this proposed bill be adopted

Please do not give any possibility of this proposed bill becoming law.

Thank you for your attention
