Dear Committee Members,

I must express my concern at the Abortion bill being introduced that, if passed, will kill babies right up to the moment of birth. Not only is this a barbaric practice, let's not minimise the reality of INFANTICIDE. Are royal mothers the only ones who have BABIES from the moment of conception? Every other woman, according to the media, carries only foetuses, a description that attempts to de-humanise these living in vitro humans. Those who kill pregnant mums are usually accused of DOUBLE MURDER. Will Australia become just another country of double-standards, oblivious to the needs of those who have little or no voice when it suits the ones who have most of the say/make most of the decisions?

I am against abortion at ANY stage of pregnancy. Please vote NO to Pyne's horrific idea.

Mrs Lyn Hurry
