Subject: Abortion reform Bill

As a parent and a human being, I am totally against late-term abortions & leaving a baby to die unattended.

I believe this is cruel and unnatural & will have dire consequences for both the people involved and our society as a whole.

It is natural and incumbent upon us to protect the weak and helpless, to demonstrate love and compassion.

Adoption is a healthy, viable alternative - put resources into life not death and bring hope for those babies and thousands of infertile couples.

Yours sincerely
Leigh Greatorex
