Subject: Abortion Bill
Date: Saturday, 25 June 2016 1:48:05 PM

Dear Sir/Madam

I wish to express my horror that anyone of sound mind could even put together a bill so horrific as this current proposal to abort babies at any stage of growing in the protection of their mothers womb. This puts Australia in the same category as China.

We are seeing more and more photographic evidence of the torture that these helpless little ones go through. Then literally to be thrown into a bucket like a piece of meat without any conscience at all defies description.

Australia must at all cost give a resounding NO to this insidious proposal, not only to the bill, but to persons who could even think of putting pen to paper to create such evil.

Said persons should have their privilege of position in Federal/State/Local Government removed.

Kind regards

Patricia Crowther
