TO THE COMMITTEE INQUIRE INTO MEMBER FOR CAIRNS HON. ROB PYNE'S
BILL ON ABORTION REFORM

I find this bill both irresponsible as well as morally wrong as it does not take into consideration the right of the unborn who has no recourse in this argument and takes away any responsibility on the woman or her partner for the course of action against the unborn.

My preferred option is to have no abortion ever, I feel at least the legislation in Queensland should not be changed; this would make everyone responsible for their actions

Doctors and medical personal need to be able to in conscience object and not be forced to perform abortions or have to be forced to refer women to other facilities.

The Government needs to provide counselling and support services to women and families who find themselves in these situations

As a private citizen born and lived and raised a family in Queensland for all of my life do not make this state into something the future generations will be ashamed of

Mr JOE GIRGENTI
