Subject: Abortion Bill proposed by Cairns MP Rob Pyne
Date: Saturday, 25 June 2016 4:01:49 PM

I am emailing regarding the above proposed bill. I am writing to share my opposition to this bill. I feel it is terrible to be able to terminate a pregnancy right up to full term. This means babies will be born alive in some circumstances and allowed to die. I cannot believe that in a Western nation that has so much going for it that a bill is proposed to allow babies to be killed. They are not just foetuses, they are babies, and in my opinion it is murder to abort them, at any stage, let alone when they are fully formed and ready to be born. There are alternatives, but people just want to destroy human life in what looks like the "easy" way. I have been in a situation where a woman tried to commit suicide after abortion, having had it not realising how it would affect her. There are so many couples who would adopt these babies if that were an option.

I would ask that this bill not be allowed and passed. There are multitudes of people who oppose it. I am only one of them.

Yours faithfully,
Joan Winton. [REDACTED]
