The private bill brought forward by Mr Rob Pyne MP, member for Cairns in my view is the first start in opening a Pandora's Box. Abortion is taking a life from one person, innocent person. A person who did not choose to be born but is given life. The act of giving life is a precious act and to allow this bill is to ignore the basic Human Charter and that is the protection of Human Life. And the one who needs the most protection is the one who didn't ask to be born but is living within its mother's womb. I accept that there are possible reasons for an abortion. But to have it, so it becomes easy to do takes away the need to consider closely what one is about to do to another Human Being. It worries me when Human Life is considered so lightly. If that is so then perhaps people like Hitler wasn't wrong in all he did.

John Stockton
