The Queensland parliament,

The abortion laws that Tom Pyne wants to introduce are no less than to legalise murder, because once conceived, the child is in fact a living person, awaiting his or her time to be delivered into this world. A child is a creation of God the Creator, who " wove each one of us magnificently in our mother's womb" and the Holy Scriptures also tell us " we were fearfully and wonderfully made, " and it is impossible for that Word to be wrong.

Anyone who agrees with Tom Pyne and gives his or her support to such a bill, will be judged by the living God as guilty of murder. We will all have to answer one day for everthing we do or even think in this world. If someone wants to be sure that they are not guilty, not only will they not give the bill their support or vote, but be forcefully and vocally opposed to it.
