Subject: Private member's bill on Abortion Law Reform
Date: Monday, 27 June 2016 8:40:46 AM

Dear Committee Members

I am asking you to protect the right of the unborn child to live. This right is currently protected by law, however this will be removed if the bill will be passed. The question often asked is - what about the right of choice whether the mother wants to have the baby. My answer is she had the opportunity to choose at the time of conception.

Thank you for your consideration

Hannes Lippmann
