Subject: Submission re Rob Pynes Modernisation of QLD abortion laws.

Dear Committee
re

Abortion Law Reform (Women's Right to Choose) Amendment Bill 2016 and Inquiry into laws governing termination of pregnancy in Queensland.

I feel this is a very overdue Law that needs to be changed, reflecting the modern values of Queenslanders. I feel abortion must be legalised to bring it out of the backrooms which have sometimes had lethal consequences due to infections.

I feel every woman has the right to choose abortion before 3 months of pregnancy.

I applaud Rob Pyne and agree entirely with his ideas to modernise these laws.

I am a Mother, Grandmother and I had an abortion many years ago in Sydney. That fetus would have maimed my ability to graduate from University and really tied me down long before I was mature enough.

Lets move forward now and give every single woman the right to choose legally whether to have a termination or to keep her fetus.

Yours Sincerely,

Phillipa Cannon
