Subject: Abortion reform
Date: Monday, 27 June 2016 9:56:22 AM

Dear Sir/Madam,

I'm against the proposed law reforms regarding abortion and strongly believe that they should be scrapped.

How is it, that in this country, we protect endangered and threatened wildlife but have no qualms about killing babies in the womb?

I love animals but I believe human life is precious and should be protected above all else.

I don't understand how a person can be charged with murder if they kill a baby 3 days out of the womb but this reform will say its okay to kill one 3 days before it is birthed. This makes no sense to me.

I'm against this law reform and ask that my voice be added to those who have also stated their opposition.

Sincerely,

Stephanie Bloomfield
