Dear Sir Sir/Madam

Please consider carefully tis bill before Parliament. It is extremely dangerous and removes all protection without implementing any safe guards. As a Queensland citizen, I strongly oppose this abortion bill and hope that the changes will not be made.

All life is precious and we should be doing our utmost to safeguard these little ones that are unable to speak for themselves.

If you would like to contact me further to discuss my phone number is [REDACTED] or you can return email me at this address.
