Subject: Abortion Law Reform Bill  
Date: Monday, 27 June 2016 1:34:03 PM

---

To the Committee,

We wish to inform you of our strong objection to the Private Members Bill from MP Rob Pyne which proposes to make abortion legal in this state with no safeguard, and abortion up to the day of delivery permitted.

We strongly object to this Bill being passed. In this day and age, when we can no longer say we are unaware of the dreadful crimes performed on unborn babies under the title of Womens Choice, it would be nothing less than murder to pass such a Bill.

It is very clear through todays technology, that life begins at conception. Please check all the facts available before making such a horrendous decision that would take away the life of a child before they can experience the life they were meant to live. We cannot know what greatness each child aborted may have risen to.

You will find that the unborn child can feel and hear. The abortion procedure destroys the little body in the most horrific way. If the baby doesn't die right away- they are just left to die.

The choice of the mother to abort her child involves the killing of her child. The child is alive. Women must be given proper counselling that would fully let them know exactly what is going to happen to that child- It is not just a thing., but a living, breathing human being. No one has the right to take a life. There are other options. Birth Control is one option- don't start what you don't want.

A Nation that feels it is acceptable to kill off it's future citizens will eventually destroy itself.

If it's ok murder defenseless babies in the womb - what's next ?

We hope the Committee will search long and thoroughly, and find out for themselves what actually happens when a child is aborted- a living human- ready to begin their life. Please do not vote to take away that humans future.

Kind Regards,

Alf and June Nicotra
