My name is Chenell Horn and I am COMPLETELY against abortion...at any stage of pregnancy.
I think it is disgusting that one can "abort" a little human, but just because its still in the womb its not called MURDER...
Abortion should be illegal, there shouldn't be any doctor willing to take an unborn life...
I felt my little humans move from about 16 weeks, how is it possible that they just want to kill those little people with no after thought...

ABORTION should be a crime!
