I am writing to make it clear that I totally disagree with a person being given the right to murder an unborn baby. This is barbaric and takes our nation backwards a century or two.

We fight to save a baby born 24 weeks premature and spend untold money to do so, but then turn around and give someone the right to kill an unborn child. We prosecute a person for harming unborn eagles but authorize them to kill an unborn human.

Please let us mature into being civilized people.

Thanks

Lyndon Westbrook
