Subject: Please don't kill our babies
Date: Monday, 27 June 2016 3:10:41 PM

I am against the murder of babies because life in the womb begins at conception and there is a person in the womb who has sustainable life from quite early on. America has killed 45 million babies. Please don't let Australia join that wicked club. Let Australians be life givers not life takers.

I know women who long for a child. Please make these babies available for them. You may be killing a Thomas Eddison or Albert Einstein!!
