Re: Mr Pyne's Bill, *Abortion Law Reform (Women's Right to Choose) Amendment Bill
2016*:

We, the undersigned are very concerned that the abovementioned Bill is an attack on the unborn, those who cannot speak for themselves. This Bill if passed would allow unborn children to be killed right up until the moment of birth. How can this be even considered, when, if the baby was killed the moment after birth, it would be called murder?

This proposal ignores the serious physical and psychological effects of abortion on women which can stay with them for the rest of their lives. It makes no provision to address the desperate plight of women who tragically see abortion as a solution to their 'problem'.

This Bill, if enacted could coerce doctors, nurses and health workers into performing this barbaric procedure against their consciences and dismisses the overwhelming community opposition to changing the law. Do we really want to be the State with the worst abortion law in the world? Above all, this does not consider the rights of the unborn child to life.
