Subject: abortion bill

I strongly OPPOSE the recent bill brought before the parliament by Mr Rob Pyne and I urge all parliamentarians to consider the following points.....

*In its current state the bill would allow abortions to be carried out on babies up to full term. Surely this is clearly MURDER. Our hospitals are spending fortunes on trying to keep premature babies alive.

*All life needs to be valued and protected. As a society , we need to protect the most vulnerable.....that means our pre- born.

*Mothers facing the difficulty of an unplanned pregnancy need our support.....they DO Not need the psychological trauma associated with an abortion.

*Our doctors and nurses need to know that they are free to make decisions according to their conscience. The science of medicine should allow us to prolong life , not cut it short.

I urge you most strongly to vote AGAINST this bill.

Bill & Marie Mahony,
