Please register my strongest protest at the proposed abortion law reform bill.

Such reform is totally unnecessary in the light of the fact that many abortions are already performed in Queensland under the present laws. The authorities turn a blind eye to this procedure and mothers aborting are NOT sent to jail or legally punished in any way. So what is the point of making abortion legal, and ergo more attractive?

One repulsive item in the proposed bill is that of late-term abortions. This proposal which would allow late term abortions almost up to the day of birth itself is utterly disgusting, and the barbaric procedures used in these cases is sickening. Such painful and callous procedures would not be allowed on an animal, and rightly so. But the human baby does not suffer, presumably because it is unborn.

EXCEPT FOR RAPE, abortion is a totally unnecessary operation. Given the abundant availability of contraception, why abortion? Furthermore, the practice of adoption has become so highly unfashionable that thousands of childless parents are unable to adopt much desired children, so why not let some deserving parent have the child that you reject?

*There is absolutely no need for legalising abortion.* PLEASE STOP THIS HIDEOUS LAW IN ITS TRACKS
