Dear Committee,

Re : Abortion Law Reform (Women's Right to Choose) Amendment Bill 2016

I see this bill as massive problem for unborn children, who are living human beings and have no choice about their right to live the lives that have been begun , whether it was the mother's choice to conceive them or not. Not all fathers wish the child whose conception they have responsibility for should have its life terminated either. In the few cases where a mother's life may be threatened by the pregnancy there are existing legal provisions.

Abortion has become too great a problem in today's world, and I request that this bill not proceed

David Jackson
