Subject: Abortion bill before the Queensland parliament
Date: Monday, 27 June 2016 8:41:27 PM

I would like to put forward my objection to the bill the member of parliament my Rob Pyne put forward in the Queensland parliament. I know that quite a substantial number of people will try to justify abortion by putting pregnancy brought about by rape, well I don't agree with that, that little baby should not be aborted, however as you might or might not know pregnancy through rape is not a large number and the number of abortions carried out because the rape victim doesn't want the baby is also not a big number.

Yes that number is small in comparison to the number carried out because the woman just decided she doesn't want the baby anymore.

There are heaps of folk who would love to adopt a baby and can't because there isn't any, there is a growing number of couples who go overseas to adopt.

Why is it ok for a woman have an abortion, the catch cry is its My body and I have the right to decide to abort it, the baby in her womb is not just a blob of blood or tissue it is a real living human baby that could make someone happy or even make a difference to our society, I truly believe it is nothing more than murder. My wife and I lost a baby 45 years ago my wife was approximately 14 or 15 weeks at the time, the baby was developed enough to identify its sex it was a boy he would be 45 now if he lived, I think of him often and wonder what he would have look like what job he would have had etc,etc.

I could not believe my ears when is heard the member of parliament Rob Pyne put forward the bill that women should be able to abort their baby right up to 9 mths , that murder, I cannot understand how a doctor who suppose save lives kill an unborn baby at any stage of the pregnancy, and there are female nurses involved also how could a woman be involved?? It beyond me to say the least, they must be the hardest people in the world, it appears life mens nothing to them and the people who agree with aborting babies.

I feel very sad at the way our country is going, there is no sense at all of righteousness we live in a country where our political leaders bow down to minority groups just to save there parliamentary seats.

Please I beg all who are involved in this stop this madness, one thing is for sure I will for never, never vote for any party who passes this bill.

Yes I am a Christian, I know there are those who turn their noses up at Christians an tell us to slip into the 21st Century, one day if you believe it or not, you will stand before God on this matter.

Yours

Dennis Crooks
