Hi! I'm a member of Cairns Northern Beaches Baptist Church and I heard of the bill put forward by Mr Pyne to remove the practice of abortion from the criminal code in Queensland in effect allowing termination at any stage. I am against this bill. I heard Mr Pyne say on the radio that the bill was in line with what would be a progressive society of some sort (??). I only see the passing or enactment of this bill as society progressing downwards when Mr Pyne continually said on radio (sorry I can't remember which station), that this was about women's rights, ignoring and not being able to answer questions regarding the rights of the baby/foetus to live. I do not want to live in the type of 'progressive society' which he wants Queensland to be which seems to elevate the right of a woman to choose over a baby's right to live.

God bless,
Salote Laubuka
