Objection to Abortion Law Reform Amendment Bill

In Australia, abortion affects one in three women. Sometimes abortion is put forward, as a method of contraception.

Humans cannot disregard the fact that this choice involves the taking of an innocent life.

Many people say it is the right of the mother.

I say what about the right of the unborn child.

People are worried, and rightly so, about child abuse within society.

Isn't killing a(n unborn) child the ultimate child abuse ?

Abortion should be withdrawn as an option for contraception.

Kind regards

Glenn Stevenson
