Subject: Submission on Abortion Law Reform (Women's Right to Choose) Amendment Bill 2016

Thank you for the opportunity to support this Bill. The Queensland legislation that criminalises abortion is archaic and long overdue for deletion from our laws. A recent case in Cairns involving a young couple who purchased an abortion pill overseas highlighted the ridiculous nature of the current laws on abortion.

I wholeheartedly support the intent and content of the Bill proposed by Rob Pyne MP for Cairns and most sincerely hope that your committee will issue a report recommending that this Bill be passed.
