

26/06/2016.

To Health Community, Disability, Family Violence
prevention Committee,

It's come to my attention that an abortion bill
may be presented to the Queensland state.

I would like it known that I and most friends
and family of mine absolutely oppose this
bill, that would harm any unborn baby.

It's a sad time in a nation when one of the
most unsafe place for a child is the world.

thankyou for hearing my
voice in this matter yours
truly
Jennifer James.

J. James.
