

Research Director,  
Health, Communities, Disability Services and Domestic and Family Violence  
Prevention Committee,  
Parliament House  
George St  
Brisbane Qld 4000

SUBMISSION:

We add our support to the proposed Bill before Parliament to repeal Sections 224, 225, 226, from the Queensland Criminal Code to make abortions legally available in Queensland and making unplanned and unwanted pregnancies a matter between a woman and her doctor.

Every child born deserves to be planned and wanted. Queensland and NSW are the only States in Australia not to have reformed their abortion laws.

When this law change happens, late term abortions will no longer be an issue because no woman would continue with an unplanned/unwanted pregnancy.
