

MIRIA PEARCY

29/6/16

I wish to state my opposition to the changing of abortion laws in the state of Queensland.

Existing practices allow for abortion if the mothers life or health is threatened.

According to the Universal Declaration of Human Rights Article 3 - "Everyone has the right to life"

International Convention of the Rights of the Child

"the child by reason of his physical and mental immaturity, needs special safeguards and care, including appropriate legal protection, before as well as after birth." Why are you considering not following that advice?

Social supports should be made available for women with social problems. Many women are pressured into getting rid of their baby and regret it. It's another form of abuse of women.

Modern ultrasound demonstrates the humanity of the unborn baby. Modern ~~to~~ technology can keep babies alive who are born of 20 weeks gestation.

It has been proved beyond doubt that ^{the} fetus feels pain at a very early age, so it's also extremely cruel!

In Qld we should want to help our mothers not kill their babies

M.E. Percy.
