Health, Communities, Disability Services and Domestic and Family Violence Prevention Committee,  
Parliament House , George Street, Brisbane Qld 4000

Dear Committee members,

I live here and our meals are prepared by a woman who came from Cairns, and has a 12 year old daughter, and supports herself, her male partner having been a former close acquaintance, but she is living with her daughter, and they are in that situation because the mother refused to abort her developing baby when urged to do so by her partner.. So she has a lively capable daughter and great company, and is very proud of her.

As this illustrates, the fundamental gift we receive, we including you members of this committee, is the gift of life, which you celebrate on your birthday every year. The state law recognizes this and bans homicide, and suicide, and drunken driving, and dangerous guns, and mercy killing of the old people, and handicapped children, and unwanted baby girls and boys. Doctors take an oath to preserve life, and it is unethical for a 'doctor' to open up a practice where he promotes the killing of people, as in assisted suicide.

This basic theme of the common law, to preserve life, requires you to protect the babies by banning abortion, and declaring the abortion of an unborn baby to be a crime in the criminal code; keep this protection of the life of the babies! Protect the youthful life of our population, keep the positive attitude to LIFE.

Thanking you for your interest, I remain, Yours faithfully,

John Mc Inerney
