Subject: No to the "Abortion Law Reform, STOP THE DEATH PENALTY ON BABIES".
Date: Tuesday, 28 June 2016 4:20:33 AM

Hello,

I write to register my opinion against any legislation that licences the hurting or killing of the most vulnerable members of our society, unborn babies.

What an irony to think we spend trillions of dollars researching for 'signs of life' in space, yet we permit the killing of innocent babies just to feed our convenience?

Instead of encouraging abortions, we could redirect those funds into foster care and facilitate adoption, as well as support networks for victims of rape and increased spending on ante-natal complications.

Babies and youth, are the backbone or future of our country. Together, we must defend them today, so that they can defend others tomorrow.

Sincerely,

E.M.Ntube (Rev)
