**Importance:** Low

---

To whom it may concern.

This is to express my opposition to this bill proposed by Mr Rob Pyne.

There is already enough access to "abortion facilities" in this state, all fetal life should be protected and abortion only allowed in exceptional circumstances such as prenatal death.

Conception as a result of "social sex" is a natural consequence, if no precautions were taken, and the fetus should be protected under law NOT regarded as a DISPOSABLE ENCUMBRANCE.
