Dear Parliamentarians,

NO TO THE ABORTION REFORM AMENDMENT BILL!

I wish to have it noted that I very strongly & emphatically oppose the Abortion Law Reform Amendment Bill. There is undeniable evidence that another human being is living in the mothers womb from the moment of conception.

I speak up for the voiceless. I stand against the proposed bill for moral, ethical and compassionate reasons. You do society and the generations to follow a tragic injustice if this bill is passed. Please it stop now!!!

Kind regards
Jozefa Hoffmann
